

Meta and Instagram Set-up to Run Ads

Lab Guide

This is your book, do with it as you may — a guide to fulfilling your dreams. What this is not: this is not a book that just tells you to fill in things. This is not a book that tells you to go find a professional. This is your guide. Follow the yellow brick road.

Congratulations you have now linked your Facebook Business page to your Instagram

Business Page.

YOU ARE NOW ENTERING LEVEL 2

Lab 4: Connecting to Meta Business Suite

1. ■ Next we are going to go over to our Meta Business Suite where we can run ads. There are multiple ways to get to the Meta Business Suite. One way is going to this url (business.facebook.com)

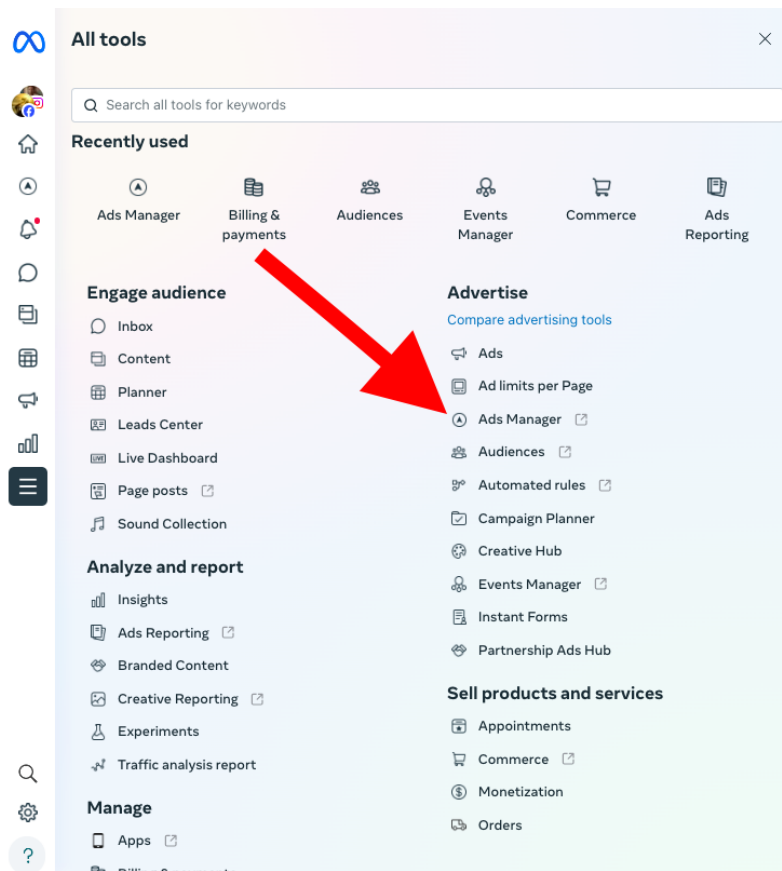

2. ■ Then we are going to create our business inside this new platform,

a. ■ Facebook is a platform, instagram is a platform, business.facebook.com is a platform we are planting our business on each one of those platforms so that we can use their tools. We are setting up our facebook, and instagram business accounts into the business.facebook.com it will be like a headquarters for our business marketing needs.

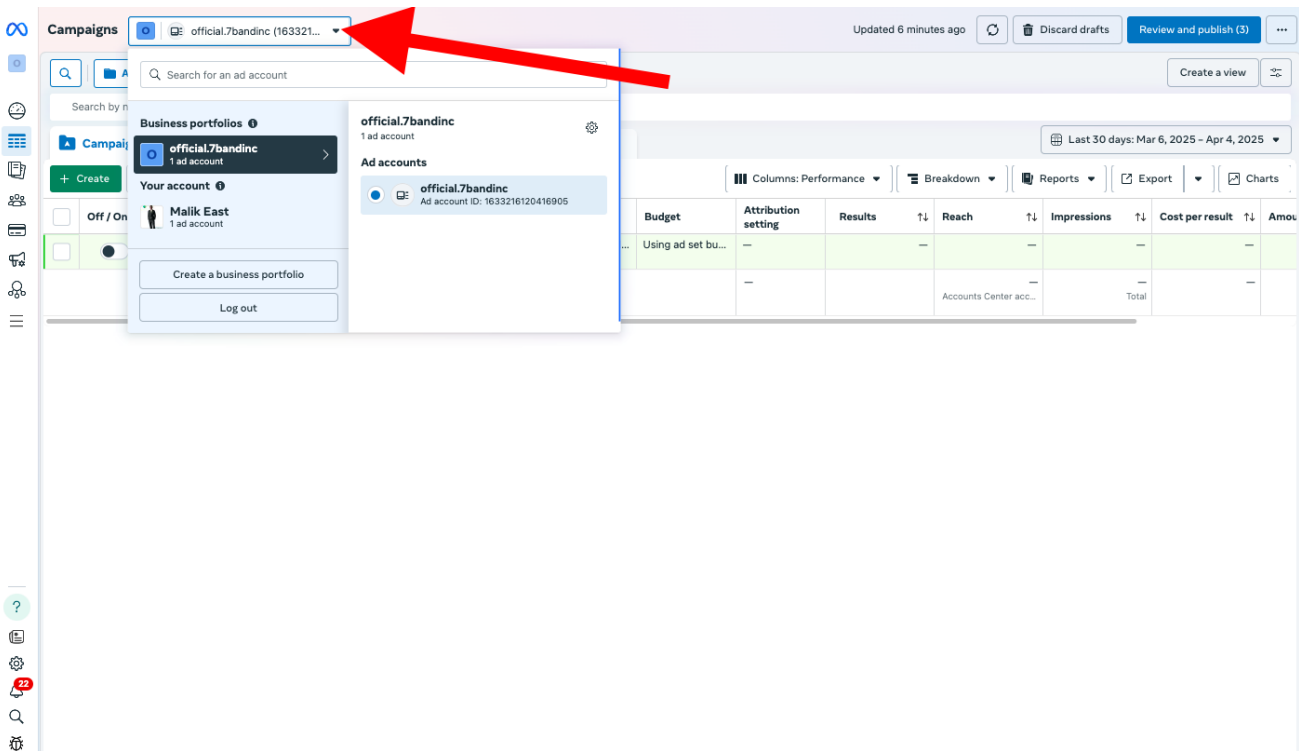

3. ■ Go to all tools

The screenshot shows the Meta Business Suite interface for a business named "7Band Inc.". On the left is a navigation menu with the following items: Home, Ads Manager, Notifications, Inbox, Content, Planner, Ads, Insights, and All tools. A red arrow points to the "All tools" option. The main content area displays the business profile with a cover photo, profile picture, and follower counts (24 Facebook followers, 1.1K Instagram followers). Below the profile is a "To-do list" section with a "Weekly plan" that includes tasks like "Publish one ad", "Publish one story on Instagram", and "Publish one post on Facebook". The "All tools" option in the left menu is highlighted with a red arrow.

4. ■ Go to ads manager

5. ■ scroll up to the left and just highlight over your profile picture and you should see something like this

6. ■ Next click down where it says (Create a business portfolio) 7. ■ You should see a screen like this below. If you do then just input your business information, and your contact information. After that click Create

Lab 5: Linking your Facebook Page, and Instagram page to Business Portfolio

1. ■ Lets click on the little gear and go to business settings

2. ■ Scroll down to where it say PAGES to

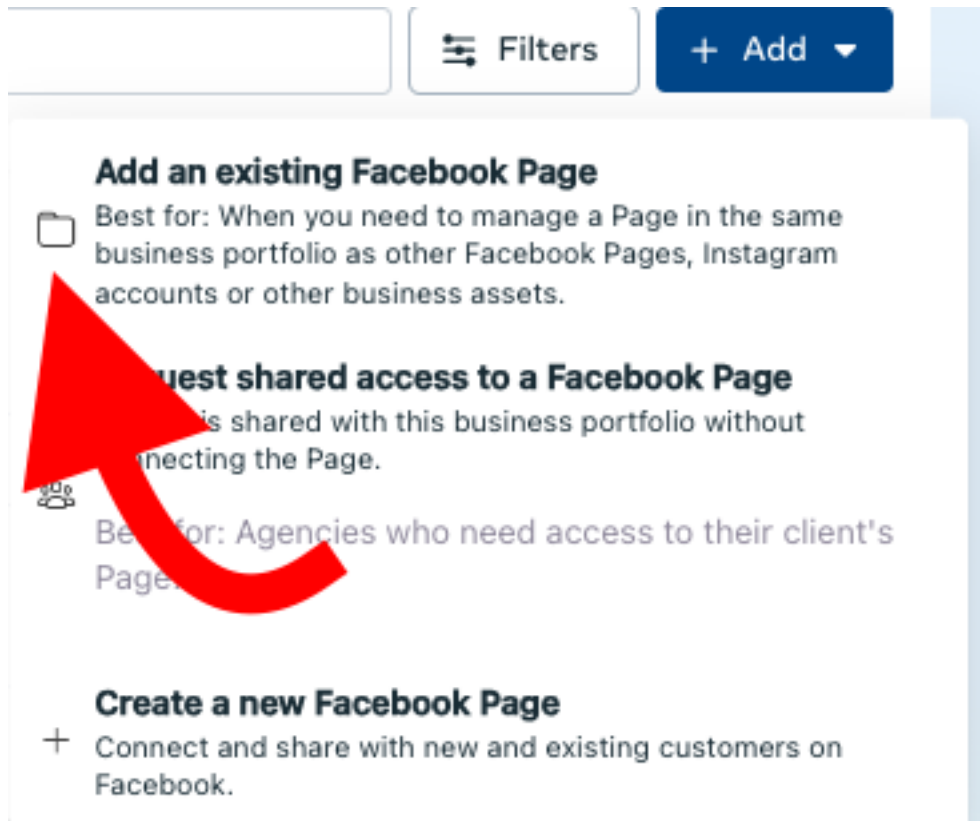

The screenshot shows the Meta Business Suite interface. On the left, a sidebar contains various settings categories. The 'Pages' category is highlighted with a red arrow. The main content area displays the 'Pages' section, showing a list of pages with a search bar and filters. The first page listed is '7Band Inc.' with its ID and ownership information. Below this, there are buttons for 'Assign people', 'Assign partner', and 'Connect assets'. A section titled '1 person is assigned to this Facebook Page' lists 'Malik East (You)' with 'Full control' permissions and a 'Manage' button.

3. ■ Click Add

The screenshot shows the Meta Business Suite interface. On the left is a sidebar with navigation options: Business portfolio info, Users (People, Partners, System users), Accounts (Ad accounts, Business asset groups, Apps, Instagram accounts, WhatsApp accounts), Data Sources, Requests, Brand safety and..., and Integrations. The main content area is titled 'Pages' and shows a list of pages. The first page listed is '7Band Inc.' with ID 253247741205267, owned by 'The Kingdom of Dreams'. To the right of this list, a detailed view of the '7Band Inc.' page is shown. This view includes buttons for 'Assign people', 'Assign partner', and 'Connect assets'. Below these are tabs for 'People', 'Partners', and 'Connected assets'. The 'People' tab is active, showing a message: '1 person is assigned to this Facebook Page. You can assign people to the 7Band Inc. Page, manage assignments and remove them.' Below this is a search bar and a list of people with full control, including 'Malik East (Y...)' with a 'Manage' button. A large red arrow points from the bottom left towards the '+ Add' button in the top right of the page list.

4. ■ Click Add an existing Facebook page or URL

6. ■ What I recommend is you adding paypal as well. The way you pay for ads is very different, for example 5\$ a day, 10\$ the next day, \$20 the next day and it'll keep doubling up. To the banks transactions like that looks unfamiliar and will cause problems

a. ■ By having your paypal and debit card as the payment method lets say facebook couldn't get the money from your debit card, it will then go over to paypal and get the funds. Paypal is most trusted by financial institutions like Banks. So no matter how the transaction looks the payment will always go through.

7. ■ So the way you pay for ads is different. Just remember to watch your ad spend if you have a set budget for running ads so that it doesn't go over your set budget.

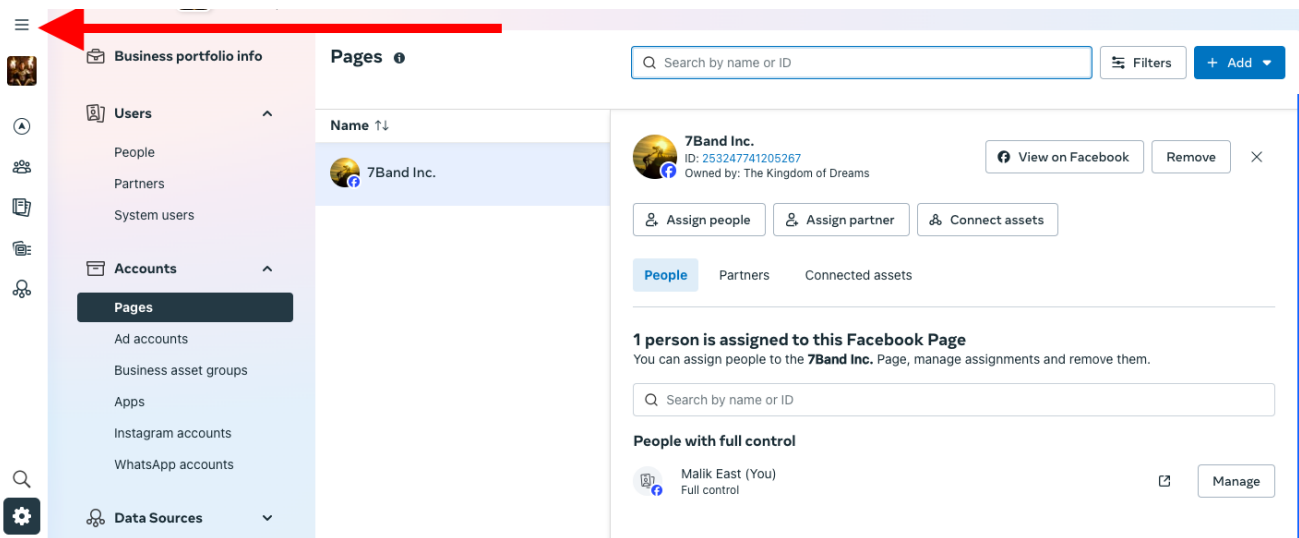

8. ■ Now at this point we should have our facebook business page added to our business portfolio, instagram account and ad account. So theoretically we are ready to run ads.

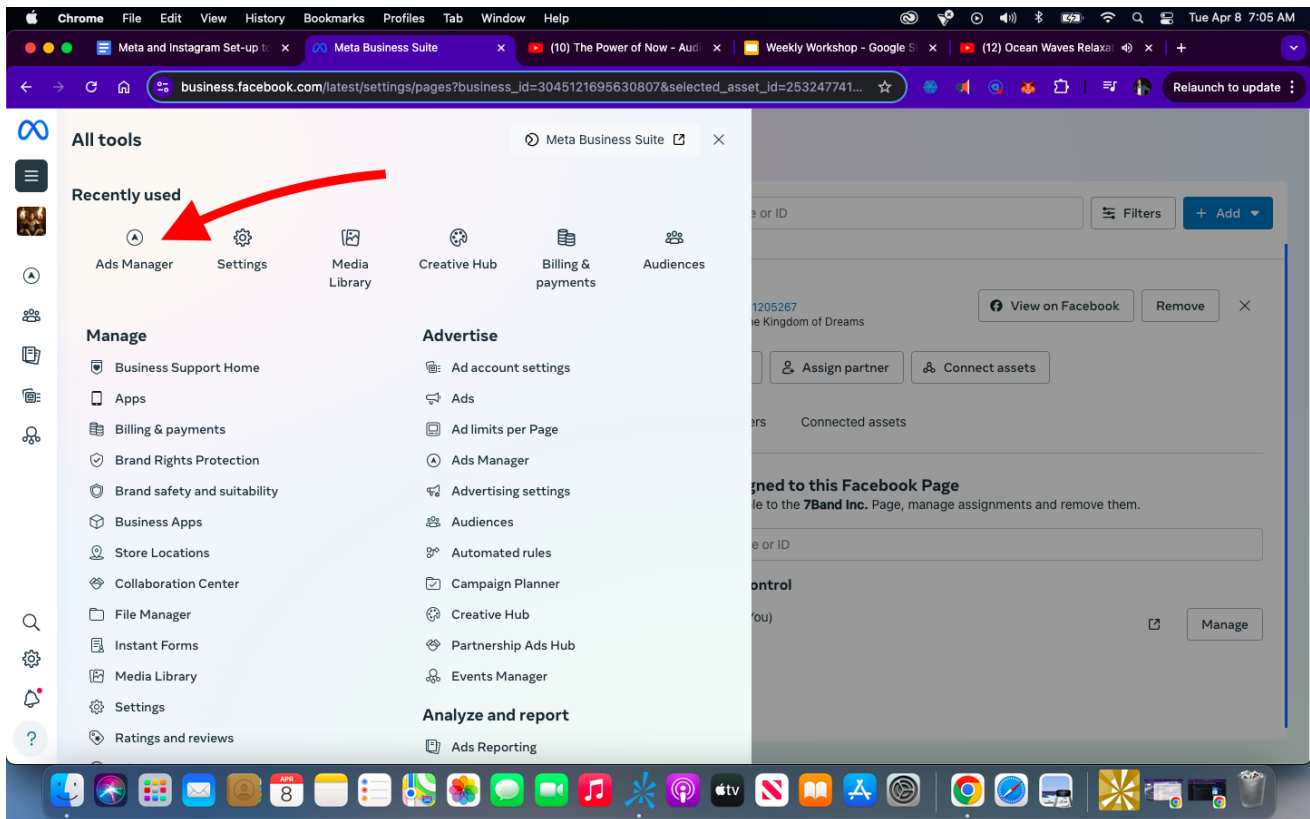

YOU ARE NOW ENTERING LEVEL 3

To get to the place where you will be uploading your creativity and running ads follow these steps below

1. ■ From The business Settings go over to the hamburger symbol with 3 lines, click it.

Lab 7b: Naming your (Engagement) Campaign

1. ■ Campaign name

2. ■ Campaign details make sure it is set to “Auction”. All advertisement platforms are basically bidding structures. So the highest dollar gets the bid. For example I spend \$100 running ads and you only spend \$20, Facebook likes me more than you because i’m spending more money so the more money you spend the more info you can collect the fastest you can get a result.

3. ■ Campaign objective is engagement

4. ■ Special Ad Category. If you were to turn this on it is because you are talking about credit, employment, politics, housing, etc. Facebook analyzes your ad description to get a better understanding who you’re trying to target, and if your targeting people in the credit field, financial services, housing, politics, they will want you to be in a special ad category an you’ll run into a lot of issues things you can and can’t say when running those types of ads

a. ■ Be mindful of the communication you have in your descriptions

Connect another number

You can connect a maximum of 50 WhatsApp numbers per Facebook Page. Edit WhatsApp numbers in [Business Manager](#) and number connections in [Page settings](#).

WhatsApp information, including names and phone numbers, is subject to the data use restrictions in the [Meta Advertising Policies](#). Your business and ads must also comply with the [WhatsApp Commerce Policy](#).

Your ads that click to WhatsApp show "Active on WhatsApp" when you're using the WhatsApp Business app. This lets people viewing your ads know they can expect a quick reply. You can turn this off in your WhatsApp privacy settings.

3. ■ Next we leave this the same. Our Performance goal will be Maximize number of conversations, because we are getting messages so the more conversations the more likely a sale. Bid Control we leave alone

Ad scheduling ⓘ☐

Run ads on a schedule

5. ■ Never spend 1\$ a day. It's like just don't run ads. \$5 a day is like \$150 for 30 days. So 5\$ a day is a very small amount to spend to force people to communicate with you, because you're going to spend money to show people something and they will respond back to you. If you don't have \$5 a day to spend on ads you're really not serious about doing business, just be honest, we don't have to spend a ton of money just to get our first conversion. My conversion right now is about \$30 every time I spend \$30. I'm guaranteed a sale. If you do this exact structure you will get leads for your business. 6. ■ Next, set a start date, and time the ad will start running. I don't usually put an end date.

But you can. 7. ■ Budget scheduling and ad scheduling i usually leave them unchecked 8. ■ Next we move down to audience control. This is where we choose where our ad will be targeted, and the audience we will be targeting.

Lab 7d: How to add your Advertisement Content

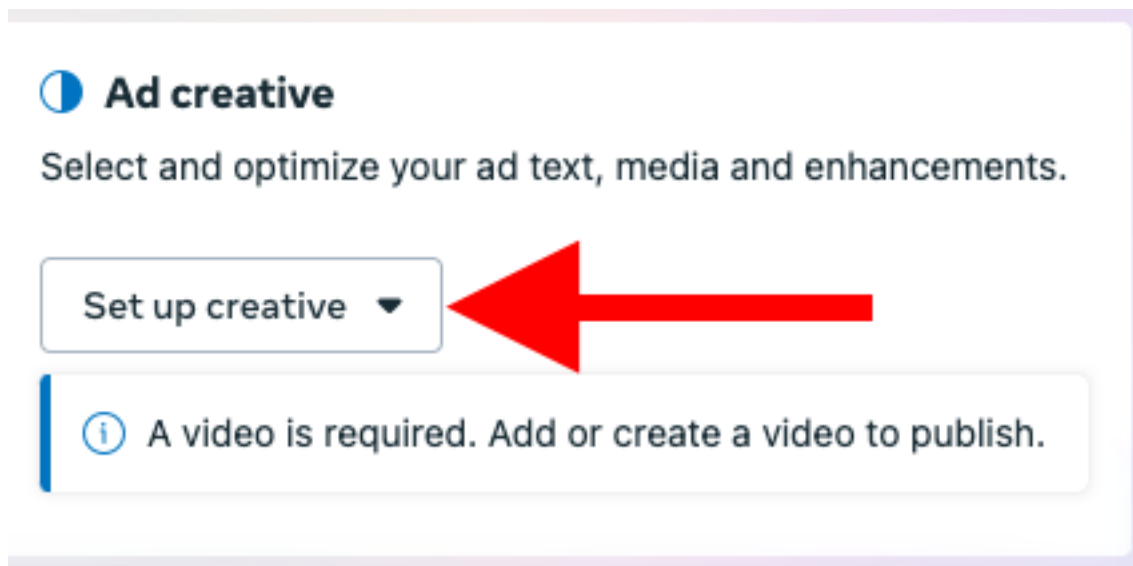

1. ■ This is the start of where you would put the content that you will use for the ad.

The screenshot shows the Meta Ads setup interface. It has a light blue header bar. Below it, there's a section titled 'Ad name' with a green checkmark icon. Under 'Ad name', there are two buttons: 'Ebook (Lab Guide) Ad Creative' and 'Create template'. Below this is a section titled 'Partnership ad' with a toggle switch set to 'Off'. The text below 'Partnership ad' says: 'Run ads with creators, brands and other businesses. These ads leverage signals from both accounts to improve campaign performance. [About partnership ads](#)'. Below this is a section titled 'Ad setup' with a green checkmark icon. Under 'Ad setup', there is a dropdown menu with 'Create ad' selected. Below the dropdown is a section titled 'Format' with the text 'Choose how you'd like to structure your ad.' There are two radio button options: 'Single image or video' (selected) and 'Carousel'. The description for 'Single image or video' is 'One image or video, or a slideshow with multiple images'. The description for 'Carousel' is '2 or more scrollable images or videos'.

2. ■ Where it says Ad Setup make sure it says Create ad, and the Format is a single image or video.
